S.T.R.O.N.G PROGRAM

(STRENGTH THROUGH RECOVERY AND ONGOING GROWTH)

Medication Assisted Recovery is the use of medication to assist in the recovery from opioid use disorder and/or alcohol use disorder. With the help of knowledgeable medical staff, case managers, and recovery coaches, eligible participants receive assistance in developing a treatment plan to guide their recovery journey upon their reentry into the community. Additionally, the STRONG program offers the Recovery Pod which is a jail-based recovery residential program. The Recovery Pod includes intensive substance use recovery programming in a jail pod with other recovery focused individuals.
