PURPOSE

The purpose of the Wood County Private Well-Water Systems Program is to protect Wood County's drinking water and groundwater resources through regulating new private well location and well filling and sealing.

Well Construction Type	
	Total
Drilled	114
Driven Point	1

This program provides the opportunity to protect public health and the environment as well as provide for the protection and safety of county citizens by inspecting new and existing well installations, discovering old wells that should be filled and sealed, and learning more about groundwater and soil conditions within the county. The program is administered countywide by the Planning and Zoning Department.
