MINUTES

HIGHWAY, INFRASTRUCTURE & RECREATION COMMITTEE

DATE: Thursday, December 4, 2025
TIME: 9:00 a.m.
PLACE: Highway Dept., Conference Room

MEMBERS PRESENT: Jake Hahn, Scott Brehm, Lee Thao, Al Breu, John Hokamp

OTHERS PRESENT: Rachel Krause, Highway Program Assistant, see attached sign-in sheet

1. Chairman Hahn called the meeting to order at 9:00 AM and declared a quorum present.
2. Public Comment – Lights at a business in CTH W are very bright. B. Clendenning has received complaints. S. Brehm received complaints about the speed of snowplows.
3. Correspondence – none
4. The minutes of the November 6, 2025 meeting were reviewed. Motion by Breu/Hokamp to accept them as presented. Motion carried unanimously.
5. Highway Staff reports were reviewed. Meeting with Village of Biron regarding CTH U through the Village of Biron. All right of way will be transferred to the Village. Resolutions to JT this section and CSM will be coming in 2026. No municipal boundaries will be redrawn. Village of Biron will pay 50% of right of way acquisition costs and 5% of the County's construction costs.
6. Highway revenue report was reviewed.
7. Motion to approve Highway vouchers by Hokamp/Thao. Motion carried unanimously.
8. CTH N bridge abutments were poured, deck will poured next week. Anticipated to reopen in February.
9. At the direction of the committee Hawk has been investigating financing options for one patrol truck in 2026. Kreit has agreed to finance the chassis and the build. In the past each vendor had been paid separately. If Kreit would finance the entire build, there would be a 3-4% charge on the vender invoices for the build. To avoid this both chassis could be financed, or financing could be sought with a local lender.

10. Discussion on how CTH F/HH intersection and CTH AA were being paid for. Funds for CTH F/HH intersection will come from bonded money and grant funds. CTH AA will come from a combination of bonded money, grant funds and GTA.
11. CTH A driveway letter was delivered on 11/17/2025 and the owner has until Sunday to comply. Hawk will work with corporation counsel to see how to proceed if the property owner does not comply with the demands of the letter.
12. Motion to approve the mastic and crack filler quotes by Breu/Brehm. Motion carried unanimously.
13. Update on the CTH B/BB property. A project needed to be created with the Marshfield Area Community Foundation to accept the donated funds. The Foundation approved the creation of the project. Resolutions have been approved by the PIT committee to create the fund and purchase the property. The donor of the funds has made an offer to purchase the property. If the resolutions are approved by county board Commissioner Hawk will create the project with Marshfield Area Community Foundation and the Highway Department can take over the current offer to purchase and pay with the donated funds.
14. STH 186/USH 10 intersection no updates.
15. Parks and Forestry staff reports were reviewed.
16. Special Use Permits – none at this time
17. Open spaces plan was reviewed. Motion to approve the Parks, Recreation, and Open Spaces Plan Update Resolution by Brehm/Breu. Motion carried unanimously.
18. Schooley reviewed parks fees to be adjusted for 2027. Motion to approve the Parks and Forestry Fees by Thao/Hokamp. Motion carried unanimously.

Accounting Supervisor Report

By John Peckham, Wood County Highway Department Accounting Supervisor

HIRC Meeting

Revenues and Expenses

Both revenues and expenses have, in a number of functions, exceeded budget estimates. Revenues for state charges, local government charges, and road-aid projects, to name a few, were higher than anticipated. Conversely, expenses for administration, crushing operations, salt brine operations, county GANG maintenance, state and local road maintenance, and road-aid projects were also higher than anticipated.

Other

In December, we are wrapping up a number of large projects, both for the County and Locals. Final costs and invoices for this end-of-year work will be generated in January and included in our year-end close of the books.

WOOD COUNTY FOREST 2026 ANNUAL WORK PLAN

The mission of the Wood County Forest is to provide current and future generations with outdoor recreational opportunities while managing timber resources for raw materials for wood using industries on a sustainable basis.

Management of the Forest balances local needs with broader concerns through integration of forestry, wildlife, fisheries, endangered resources, water and air quality, soil, and recreational recommendations and practices. Multiple-use management will provide this variety of products and recreational amenities for the future with sound forestry management practices. The Forest will also be managed for such environmental needs as watershed protection, the protection of rare plant and animal communities, and biological diversity.

The Wood County Forest will be protected from natural catastrophes such as fire, insect and disease outbreaks, and from possible detrimental effects of human encroachment, over-utilization, environmental degradation and excessive development.

ANNUAL DNR TIME STANDARDS

Each year the county forest administrator and the Department of Natural Resources (DNR) liaison forester meet for an annual meeting. During this meeting one of the discussion topics is the DNR's availability to work on the county forest, also known as "Time Standards". Time Standard hours were revised in 2022 resulting in the current DNR minimum Time Standard commitment of **819** hours. This new Time Standards revision affects all county forests and is to be in effect until the end of DNR fiscal year 2027. The DNR Time Standard commitment for all counties has fluctuated over the years.

This past year the DNR contributed **865.5** hours, thus exceeding the **819** hour Time Standard minimum for 2025. Wood County is experiencing an increased interest, pressure, and opportunity for land trades and

acquisitions that could benefit the county forest. It is possible an adjustment to the Time Standards will be needed to address increased workloads associated with land trades/acquisitions.

TIMBER SALE NEEDS IN 2026

The timber sale program on the forest continues to generate substantial revenues for the county.

Gross timber revenues for 2025 were \$---,---.--- (or \$---,---.--- net).

Each year we examine the timber harvest schedule from the Wood County Forest / DNR forest inventory data, and GIS representation of the Wood County Forest to identify areas in need of a harvest or thinning. To maintain a sustainable flow of income to the county, timber sales are established throughout the year and then sold at bid openings, usually targeted for spring and fall. Once contracts have been signed, loggers usually have two years to harvest the timber on each sale. This past year, we established thirteen timber sales on 396 acres. Unfortunately, three of these tracts did not receive any bids. We may adjust stumpage prices and/or other factors pertinent to each unsold tract and rebid in 2026.

WILDLIFE HABITAT PROJECTS:

Wildlife Habitat Grant funding was fully funded in State budget for 2026, thus generating appropriate amounts under what was originally known as “Dime-an-Acre”.

Wildlife projects, utilizing Dime-an-Acre monies, identified for the year 2026 include:

- Shearing tag alder and non-commercial aspen for grouse/woodcock habitat improvement project.
Location and acres to be determined through consultation with local DNR wildlife biologist.
- Red-Shouldered Hawk/Goshawk: Survey suitable habitat within new timber harvest areas as needed.
- Herbicide control of invasive species depending on \$ amount expended on above projects.

2026 REFORESTATION/CULTURAL PROJECTS:

a) Reforestation:

- Red pine seedlings are scheduled to be planted on 46 acres in compartment 14-stand 1, and compartment 19-stand 24. These sites will be hand planted at a rate of approximately 1250 trees per acre in spring 2026.
- Jack pine seeding: The following is a list of sites that have been identified as suitable for seeding to jack pine. These sites, and possibly others, will be scarified with assistance from DNR dozer(s) followed by direct seeding to jack pine as availability of machinery and personnel permits.

RECON UPDATING:

- Routine recon updates due to timber sales completion as needed.
- Backlog recon project: update recon in compartments 25 and 26, approximately 542 acres. These compartments contain some of the oldest and most outdated data on the county forest. Due to difficult access and resulting lack of past management it is suspected that composition and health of these forest acres may have changed significantly. Updated recon data is crucial to future management decisions.
- Evaluate natural and artificial regeneration on 321 acres.

OTHER WORK NEEDS:

a) Forestry Technician:

- Continue training Forestry Technician to improve skills related to forestry aspects of the position. The Technician position shall be focused on timber stand improvement, invasive species management, forest infrastructure maintenance, and shall assist with timber sale establishment, forest recon, tree planting, surveys, ATV trail development, etc.

b) Road Repairs & Access Management:

Road improvement efforts in 2025 were somewhat reduced due to other work priorities. Therefore, improvements and regular maintenance will be placed as a higher priority in 2026. Heavily traveled county forest roads open to vehicular travel are in decent shape but still vulnerable to wet conditions. Furthermore, it is expected road maintenance needs will increase on certain roads destined to become part of the new Wood County ATV trail system. Road maintenance and improvements will continue to be a main work priority for the forestry technician.

- Continue project to repair and protect damaged roads on the county forest. Road repairs and closures will occur throughout the county forest as time and manpower permit. Install boulders and rebuild berms throughout county forest where vehicles are gaining illegal access and damaging roads or dumping trash.
- Begin project to improve road and install railroad crossing in compartment 46 for the purpose of timber sale access.
- Improve parking and vehicular access control off Puff Creek Boulevard (south access to the Richfield 360 block of county forest).

c) Recreation:

- ATV Trail Improvement: Maintain trail identification and signage improvements to the Wood County ATV intensive use area located south of HWY 54 near Port Edwards. Also, work with DNR forestry technicians to incorporate dozer-training time for trail maintenance purposes whenever possible. Improve access for emergency vehicles and first responders.
- Maintain new ATV trail system on county forest including signage, brushing, grading.
- ATV Trail Development: 1) Work with Wood County ATV Trail Coordinator to complete trail development project north of HWY 54 (near ATV intensive use area). 2) Continue identification and planning for future trail development projects within Wood County Forest lands.
- Mountain Bike Trail: Work with local individuals who have begun developing a mountain bike trail system in the South Bluff Block of Wood County Forest. Maintain helicopter-landing site for emergency response.
- Disabled Hunter Blinds: Complete project to improve/develop hunting blinds, policy, and procedure to reserve blinds, notify public of use of blinds and associated areas. Continue to make necessary repairs to blinds and regrade, improve access/gravel approach.

d) 2026 WCFA Summer Tour

- Plan and host 2026 Wisconsin County Forests Association (WCFA) summer tour.

e) Land Surveying Needs:

- Several areas of the county forest need surveying and boundary line establishment. We will continue a survey project, using budgeted dollars, to facilitate timber sale establishment in areas of the county forest in need of management. We will also work with neighboring landowner requests to locate property lines provided good monumentation exists, and as time permits.

f) Easements, Encroachments, Land Transactions:

- Investigate and address easement, land trade requests and encroachments as they arise. Investigate opportunities to purchase parcels advantageous to the management of the county forest as they arise. Recently several parties have expressed interest in trading for County Forest lands.
- Utility Easements: Fiber-optic and other utility activity is increasing in Wood County and it is expected that these developments will impact the Wood County Forest and result in additional increased workload.

g) Forest Certification:

- Continue to make changes necessary to comply with forest certification corrective actions previously identified and as solutions are developed.

h) Wildlife Habitat:

- Continue to involve the wildlife biologist in timber sales design, planning for Dime-an-Acre grant funds, and in identifying wildlife habitat improvement projects.

i) Invasive Species:

- Continue efforts to treat most severe infestations of buckthorn. County forest locations include timber stands in Compartments 69,74,75,79.

j) Beaver Issues:

- Continue to address increasing complaints about beaver activities on Wood County Forest where they are negatively affecting town roads and recreational trails. Make use of volunteer trappers whenever possible.

k) Technical Forestry Training & Technology:

- Take advantage of training and continuing educational opportunities offered through DNR, FISTA, and other professional forestry organizations as time permits.
- Cooperate with other entities (e.g. FISTA, UWSP, WLAWCA) to promote forestry and natural resource educational efforts.

k) Drainage Ditch Management:

- Continue efforts to work with cranberry grower requests to clean selected ditches to improve drainage. Ditch cleaning projects will be discussed with appropriate DNR, Army Corps of Engineers, County Planning and Zoning personnel to ensure proper design and permits are in place.
