ACTIVITY REPORT

May 8th, 2023

- Child Support Reimbursement
- Open Records fulfillment
- Continuation from April: WRFD contacted Dispatch due to a paging issue on a fire call on 3/16/2023. It is suspected to be a WRFD radio issue, not Wood County. Troubleshoot with WRFD and Erik Engel regarding a couple instances of tones not broadcasting at the Fire Station/WRFD radio channel. Results still pending, initial findings are that it is not a Wood County equipment issue. Erik and I are still assisting the WRFD in finding resolution.
- Held interviews for 14 applicants for the 3 vacancies. Human Resources conducted Reference Checks with hopes of starting 2 in May.
- Completed CIP for new Dispatch workstations. 3 different vendors were spoken with regarding quotes/design.
- Completed Notary Applications for 3 dispatchers that had been pending since 2022.
- Went over the Marshfield Utilities Gas transmission safety plan with Marshfield Utilities personnel and Wood County Sheriff's Department Capt. Hoogesteger. Updated contacts were collected and added to Dispatch resources.
- Attended quarterly Wood County Fire Chief's meeting.
- Attended recurring team call revolving around the NextGen911 Grant.
- Completed quarterly report for the Department of Military Affairs to remain in compliance with the NextGen911 grant.
- Attended meeting with MSTC along with Capt. Hoogesteger regarding a possible collective training opportunity. Ultimately it was decided that we would not pursue the opportunity due to cost, potential invalidities of the training material and uncertain interest of other surrounding agencies.
- Participated in Emergency Management's planning meeting for September ERCO Hazmat scenario. Follow up meetings and planning to occur throughout summer.
- New Red Cross contact information for First Responders was received and Dispatch records updated.
- Presented Everbridge program to the Operations Committee with Sarah from Emergency Management to potentially onboard in Wood County.

I am not in attendance of today's Public Safety Committee Meeting due to attending the WIPSCOM/WI-NENA conference in the Wisconsin Dells from May 7th – 10th. In lieu of my attendance I wanted to provide some additional details to my Activity Report.

Our newest hire, Krystin Eckes, began employment today. She has several years of emergency service experience as a paramedic with various clinics and helicopter services. Our second hire is to begin before the end of May. The plan from that point is to allow them to get a good 2 months of training under their belt before we start our third individual that will round out the Dispatch staff. The delay between the second and third is to avoid burnout with training staff, especially as we enter the Summer season that tends to be a little more chaotic in general.

I submitted the CIP for the new workstations. I found that in all likelihood the workstations we currently have are not designed for a dispatch center and that the furniture that is specific to these types of settings are, understandably, much more expensive. But, you get what you pay for and that's why I believe we're in the position we are now. The couple dispatch specific companies I spoke with have console life expectancies of 10-30 years with varying degrees of warranties and costs. I only received one actual quote and that is what I based by CIP on. In general, these workspaces are easily \$100,000 - \$150,000 for a center of our size.

DATE: May 01, 2023
TO: Wood County Public Safety Committee
FROM: David A. Patton, Wood County Coroner
SUBJECT: Monthly Activity Report – April 2023

The following is a list of services rendered by the Wood County Coroner’s Office for: April 2023.

Deaths in Wood County.....	85
Calls for Service.....	72
Natural.....	21
Falls.....	2
(1 fall resulted in a hip fracture where the decedent developed inanition/failure to thrive. The second fall resulted in bilateral (both) femurs being fractured and after surgery, blood clots developed and caused a pulmonary embolism)	
Covid.....	0
Traffic Fatalities.....	0
UTV/ATV/Snowmobile.....	0
Suicides.....	1
Homicides.....	1
Suspected Overdoses.....	0
Other.....	0
Pending.....	0
Death Certificates Signed.....	25
Cremation Permits Signed.....	58
Autopsies Performed.....	1

Remarks:

Tablets: Several deputies have completed training on the new tablets. During one training session, it was found that the tablets would not open the SVRIS program which is the state reporting system. IT believes that it

is a minor issue, and they just need to install one additional program that allows SVRIS to function. Once this is resolved we will get the tablets out for field use.

Autopsies: Overall, our number of autopsies have seemed to decrease slightly from this year as compared to previous years. We have not been arbitrarily sending potential overdoses to autopsy within a day. This has given the deputy coroners time to request and review medical records looking for any potential other causes of death. This time also allows the respective law enforcement agency to investigate a potential criminal case. Certainly we will always work with law enforcement and if an autopsy is requested, we will have one performed.

Respectfully Submitted,

Notes: (The notes below reflect to the categories above in the y-t-d)

#4 – Falls: April was another low month with deaths associated from falls. April saw us with 2 fall related deaths. One of the falls resulted in inanition or failure to thrive, after a decedent fell and fractured their hip. The second fall resulted in the decedent falling and fracturing both femur bones. Post surgery, the decedent developed blood clots which unfortunately developed into a pulmonary embolism.

#5 – Covid: The Covid deaths have been consistently low and now we have a second month this year with no reported Covid cases.

#8 – Suicide: We had only one reported case of suicide that happened late in the month.

#9 – Homicides: While still under investigation by DCI, the Grand Rapids incident will be considered a homicide. This case is also the reason for the only autopsy performed last month. We are fortunate to have very knowledgeable and skilled forensic pathologists a phone call away to help us with any questions we may have.

#10 – Suspected Overdoses: Another month with no suspected overdoses. As compared to this time period a year ago, our suspected overdose deaths are the same at 4 for the year.

Security Services April 2023 Report

For the month of April 2023, the total number of prohibited items prevented from entering the Courthouse are:

Guns -	0
Knives -	79
O.C. -	14
Misc. Items -	11

The miscellaneous items that were located were three pairs of scissors, wire cutter, 4 in nails, window punch, a self-defense tool, a holster and .22 ammo.

On April 13, a county employee, while walking through the county parking lot, located a loaded 9mm magazine lying on the ground. The employee turned the magazine over to Security.

Security Services screened 7,852 people entering the courthouse for the month. Security Services had 56 security requests from different departments within the Courthouse for the month.

Security Services arrested three individuals, which were in the courthouse, on warrants this month. We handled three complaints in the jail this month. The reports were for drugs found in the jail, criminal damage to property and we are currently investigating a possible sexual assault.

During the Month of April, I utilize part-time employees for 27 hours to fill employee shortage hours.

Facility Overview:

The Wood County Jail was constructed in 1950 and modified in 1992. The facility is linear in design and consists of 10 cellblocks (A-F, K, X-Z) and 9 dormitories (G, H, J, L, N, P, R, S, T).

A new facility has been approved, ground was broken in October of 2022, and the anticipated completion date is the spring of 2025.

Physical Environment:

The overall appearance of the facility during the inspection was in satisfactory condition. Concerns related to the facility noted in prior inspections remain, but will be remedied with the construction and completion of the new facility.

Facility Climate:

During the walkthrough persons in custody shared positive comments regarding the staff and jail operations. Administration and staff are to be commended on the positive feedback and facility climate.

Operations:

- Medical: Southern Health Partners provides contracted medical services at the facility 60 hours per week.
- Mental Health: Aspirus provides 60 hours of onsite mental health services each week
- Food Service: Trinity Food Service provides inmate meals. The Wood County Health Department completed the annual kitchen inspection on 2/10/23, and the annual menu review was completed by a registered dietician on 4/7/23.
- The annual fire inspection was completed on 12/14/22 by the Wisconsin Rapids Fire Department.
- All required annual training has been completed.
- All internal safety and security, door and lock, and fire safety monthly checks are being completed as required and pest control is completed on a monthly basis.

Inspection Results:

The following violations were noted during this year's inspection process:

- Administrative Code DOC 350.13(5) requires a health appraisal to be completed within 14 days after arrival at the facility, unless one has been completed by health care staff within the previous 90 days. A spot check of documentation revealed non-compliance as there were health appraisals that exceeded the required timeframe. It is noted there was a change in nursing so this, along with other medical requirements, was discussed with Nurse Ashbeck on the day of the inspection.
- Administrative Code DOC 350.16(7) requires medications administered to an inmate be documented. A spot check of the medication administration records revealed non-compliance, as there were unexplained gaps in documentation. As noted above, there was a change in nursing staff and this was discussed with the nurse on the date of the inspection.
- Administrative Codes DOC 350.18(1) and 350.18(3) require that all inmates are personally observed by security staff at staggered intervals not to exceed 60 minutes in length, 15 minutes for those individuals on a suicide watch, and that each observation shall be documented. A spot check of records revealed non-compliance, as both types of wellness checks, or documentation thereof, had times which surpassed the required timeframe. It should be noted that the majority of wellness checks were completed in a timely manner and that similar to last year, administration noticed the overages and checked video footage. They noted the wellness checks were being completed by correctional staff, who at times forget to hit the button documenting the check. Administration has spoken to staff to attempt to resolve the issue.

Recommendations:

- Continue to work with the new facility's transition team to identify issues and concerns related to the new jail facility being built, and continue to evaluate and update policies and procedures as needed.

I would like to thank Captain Ashbeck, Nurse Ashbeck, and the rest of your staff for their cooperation during this inspection process.

As I've noted in previous years, the age of the facility poses challenges to facility operations; however, your administration and staff work with high regard for their profession, as exhibited by positive inmate comments and a positive climate. Please extend my gratitude for the professionalism and dedication they exhibit while conducting their work duties.

If you have any questions regarding this report or any other matter, please feel free to contact me.

Sincerely,

Jodi Hollister, Inspector
Office of Detention Facilities
